** BELIZE. 28376 USB, Nov 12 at 2311, V31TL calling QRZ and working US stations; also sounds like an American. Yes, QRZ.com: ``V31TL Belize flag Belize, Thomas A "TOM" Linke, 8 Springsteen Ct, Stony Point, NY, 10980, USA --- I will be operating in Belize from Nov 5-8, 2024. Mostly from POTA Parks, BZ-0057, Altun Ha Archeological Reserve and BZ-0067 Community Baboon Santuary Wildlife Area. Using just 50W, FT-891, battery and EFHW. Look for me on the POTA.app. I'll post myself before heading out. Cell service is minimal here. From Nov 10-14, 2024 I will be on the ocean and heading to BZ-0075, Half Moon Caye Marine Reserve and possibly BZ-0072 Turneffe Atoll Marine Reserve. Definitely no cell service. I hope to find out why only 3 of Belize's 79 parks have been activated`` (Glenn Hauser, OK, WOR)

** BRAZIL. 6009.974v, Nov 10 at 0105, R. Inconfidência ID in passing amid some good music, and good signal into Brasília SDR, but nothing from Belo Horizonte on 15190. Another check at 0355, S9/+10. About all I ever hear direct is the JBA off-frequency carrier of ZYE521 (Glenn Hauser, OK, WOR)

** BRAZIL. 11780, Nov 13 at 0750, music VP S3, presumably RNA, which both Aoki and EiBi say starts at ∗0750, altho EiBi, not Aoki shows Iran could also be on 11780 now (Glenn Hauser, OK, WOR)

** CANADA. 382 MCW kHz, Nov 7 at 0724 UT, ND beacon dash and YPL is JBA vs the local noise level, 500 watts. unheard for some time, as well as 346 MCW kHz, dash and and YXL, Sioux Lookout, Ont. YPL is 1000 watts at Pickle Lake, Ont. My last definite log of it was Jan 28, 2023 (Glenn Hauser, OK, WOR)

** CANADA [and non]. 28153, Nov 8 at 2303, VE3IDS/B, CW beacon, relog and on 28183, dash and XE1RCS/B, also relog, among many others now on 10m. I tend to pay more attention to foreign ones (Glenn Hauser, OK, WOR)

** CHINA. 15360, Nov 8 at 2318, S9+10/20 Chinese with heavy flutter in signal up and down, as well as sidewise = Doppler fluxuation. Then similar but weaker S6/S8 sigs on 15740, 15775. Aoki shows all are CNR1 jammers against SOH (Glenn Hauser, OK, WOR)

** CHINA. 7620, Nov 8 at 2323, Chinese at S9 with some Doppler flutter but not as much strength flutter as the ones on 15 MHz. Aoki shows this hour only is CNR1 jamming vs RFA in Tibetan via Tajikistan (Glenn Hauser, OK, WOR)

** CHINA. 11460, Nov 12 at 2259, JBA AM signal seems talk, stronger than 11529.9 Hikari FM, so maybe its second transmitter? No, EiBi & Aoki show as CNR1 jammer and Sound of Hope channel (Glenn Hauser, OK, WOR)

** COLOMBIA. 10125 CW, Nov 8 at 2259, HK3QQ with his defective letters in keyboard order. Had left the rx tuned here, so first thing audible when onturned, much weaker than in the nightmiddle. After the letters, sends BOGOTA COLOMBIA (Glenn Hauser, OK, WOR)

** CUBA [and non]. 870, Nov 10 at 0314, whooper is way louder than WWL! not exactly spaced, but I count 67 in a quarter minute -> 268 per minute. A.k.a. wobbler. WRTH shows tres Relojes of 10, 10 and 1 kW (Glenn Hauser, OK, WOR)

** CUBA. 5025, Nov 8 at 2316, even R. Rebelde is missing. One should read in the WOR iog, David Crawford`s evaluation of Cuban transmitter/site situation (Glenn Hauser, OK, WOR)

** CUBA. No signals from RHC early UT Nov 7, when I check the website -- it`s still up and seems well designed with lots of stories and listen-linx, not tried. But INTERESTING pages? Frequencies leads to the B23 sked, not B24. Programming as usual presents NO info on program titles, schedules, etc., but an even more far-out-of-date transmission schedule including frequencies gone for many years. I don`t see anything about quitting SW, either necessarily or voluntarily. Then I see news that at the same time, hurricane Rafael was crossing near Habana causing another blackout.

This page supposedly supplies continuous webcast with some program titles, and English hours starting at 6 am and 3 pm only, but all-Spanish in evening. Is that EST = 11 & 20 UT, or EDT = 10 & 19 UT?
https://www.radiohc.cu/audio_en_tiempo_real
I start it ``playing`` at 1750 but nothing heard (Glenn Hauser, OK, WORLD OF RADIO 2268)

** GERMANY. 9670, UT Sat Nov 9 at 0400, `From the Isle of Music` - Cuba, Uncle Bill Tilford`s monthly show, not available via US station or ondemand, only when aired via Channel 292. I`m getting it sufficiently into Maryland SDR in SAU mode to minimise ACI from 9665v Brasil; and improves slightly as the hour proceeds. At same time next week: `UB`s Melting Pot`. HFCC shows this as only 2 kW (Glenn Hauser, OK, WOR)

** JAPAN. 13705, Nov 13 at 2305, NHK in listed Thai, S9+10 vs HNL, off the back (Glenn Hauser, OK, WOR)

** JAPAN [and non]. 28475 USB, Nov 8 at 2308. JG1HQA, QSO in Spanish with an XE in BCN. QRZ.com: ``JG1HQA Japan flag Japan, KOHJI SATO, 13-12 HEMIGAOKA, YOKOSUKA-CITY, KANAGAWA 238-0044, Japan`` (Glenn Hauser, OK, WOR)

** KOREA NORTH. 7580, Nov 9 at 0747, music at S6/S7 = noise level. Aoki shows VOK nothing but Japanese here at 0700-1250 & 2200-2350 (Glenn Hauser, OK, WOR)

** KOREA NORTH. 11680V, Nov 13 at 2309, song S9+10/20 but very distorted and frequency wobbling. KCBS Pyongyang as on here 22 hours per day. Something`s kooky at Kanggye (Glenn Hauser, OK, WOR)

** KOREA SOUTH. 7720, Nov 9 at 0748, JBA signal. Aoki and EiBi show Echo of Hope = VOH, but at 1100-0700. Maybe remnant of jammer, but Aoki does not mark it as *jammed (Glenn Hauser, OK, WOR)

** MALI. 15125, Nov 13 at 1625, S5/S8 of ME music, listed as CRI Arabic relay. One of few signals on band and by far the best beyond USA (Glenn Hauser, OK, WOR)

** MEXICO. Re my unID carrier on approx 630.1 kHz, another report via IRCA: ``Mexican on 630.090 kHz Tim Hall Nov 10 #51687

Does anyone know which Mexican station is operating at an offset of 630.090? (None are currently listed on mwlist.org).

In my sessions from the Nevada-Utah border at the end of October, I've got a station on 630.090 running Mexican AC (the one song Soundhound could identify was from 2020). This was at 0200 UT on 28 Oct 2024. I don't have an audio clip to share, because no announcements were heard, only music.

My wire was aimed at South Texas and Colombia (121 degrees), and the 4 surviving Mexican stations are well south of that (135, 136, 137 and 150), but the radio blackouts were starting to lift at this hour, and stations from Mexico City and Guadalajara were suddenly starting to

come in on this wire even though it was aimed well north of them. All I've got going for me is that offset. 73 Tim P.S. Another station (format unknown) had an offset of 630.021`` (via Glenn Hauser, OK, WOR)

** NORTH AMERICA. 6925-, Nov 11 at 0358, S9+40 of SSTV beepery. Nothing in HFU at this hour, but unID, earlier labeled Outhouse Radio, 6924.78 with SSTV images of several `other` stations: https://www.hfunderground.com/board/index.php/topic,136648.0.html (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 7475, Nov 11 at 0359, Station YHWH is S9 direct but JBM (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 11529.9, Nov 11 at 0406, Hikari FM at S9 with some JBA talk. At 1542 JBA. Nothing audible now near 11420, but Rick Barton had reported that second // frequency:

``HIKARI FM (p) 11/9 1610, 11420 (+/-) AM. Was fair at tune-in, but signal deteriorated quickly at 1620. Faded out but back on Poor to Fair with 1720 recheck. It was on this recheck we found the station is // to the 11530 signal (which is much stronger). Heard on Drake SW1, long wire. --- Fair - Poor Nov 9 +NOTE: As I was preparing to send out this update (Nov. 10, 1730 UTC) the 11420 // had not been audible until 1720 - very weak, but def there. 11530 is strong at this writing. + We had first heard this station on 11/8, but stupidly forgot to jot the fqy down. (Rick Barton, AZ)`` (Glenn Hauser, OK, WOR)

** OKLAHOMA. 27185, Nov 8 about 2120, into BSR1 SW caradio, gospel music // 105.5 K288FX translator of KYLV K-Love 88.9 OKC, tnx to Enid CB pirate (Glenn Hauser, OK, WOR)

** PERU. 5025, Nov 10 at 0158, JBA signal, maybe trace of modulation. Cuba has been off for a while, so our golden opportunity to hear R. Quillabamba. Aoki shows until 0200*, EiBi until 0220* and from *0957. Unless it`s a Rebelde exciter-only; this signal still there at 0321 (Glenn Hauser, OK, WOR)

** ROMANIA. 7325, UT Sun Nov 10 at 0152, RRI finishing a mailbag and on to `Simply Folk`, S9+20/30 direct. The 0142-0152 show is DX Mailbag alternating with Listeners` Letterbox, not sure which (Glenn Hauser, OK, WOR)

** SCOTLAND [non]. 5850, UT Sun Nov 10 at 0154, `Encore` classical music hour, S9+20/30 via WRMI, concluding with a Chopin Nocturne. I always try to hear each excellent fortnightly programme at least once via WRMI 5850 or 5950 (Glenn Hauser, OK, WOR)

** SPAIN. 9690, Fri Nov 8 at 2301, token English from SNR does not fail to appear, VG S9+30 direct, news leading with the Valencia flooding disaster and blaming governments for not giving advance warning. Also sufficient on 12030, 17715, insuff on 17755, 2314 during feature about students studying English leading to marriage (Glenn Hauser, OK, WOR)

** SPAIN. 9690, Mon Nov 11 at 2300, token English from SNR at S9+20/30 direct and sufficient. Previews topic to be analysis of US presidential elexion, and right into that by 2302, skipping any news! Not a serious international broadcaster with news so disposable. Guest is some prof from DePaul?/DePauw? University, the now usual take that Harris and Democrats did not appeal enough to the masses. Also // 12030 at S9/+10 and detectable on 17715 but not 17755, off? At 2356 checked Canary SDR while in French, three audible there, not 17755 for Africa (Glenn Hauser, OK, WOR)

** SPAIN. 17755, Nov 12 at 1925 into UTwente, African frequency of REE is still absent, audible on 17715 for S America. If it`s Tuesday there must not be English, but at 2258 check, N American frequency 9690 is gone again! Something`s notright at Noblejas. Also no 17755, but still on and audible are 12030 and 17715 not // (Glenn Hauser, OK, WOR)

** SPAIN. 9690, Wed Nov 13 at 2258, SNR not off the air, VG S9+20/30 direct and not yet // 12030 S9/+10. They do join at 2300 for English when 17715 is also audible but nothing on 17755. Something`s not right at Noblejas. Intro is about the flash flooding a biweek ago and the blame game of which level of government failed with warnings in time. Also interview with someone from Spain`s met agency about how climate change is the cause, and bracing for more storms now in southern Spain as well as Valencia. At 2323 check into UTwente, same 3 frequencies only, about the 100th anniversary of broadcasting in Spain (Glenn Hauser, OK, WOR)

** TURKEY [and non]. 5960.016+, Fri Nov 8 at 2300, VOT English not off the air, S9 but too noisy direct, so I skip the olds. At 2333 into UTwente when measured, S9+30/40, it`s Efsun the axentuated, 2335 outro `That`s Why`, music; 2338 music and more music. 2353 s/off as if on 13635 at 1330. Something`s always awry at Ankara. 2354.4 IS briefly, off by 2354.6* uncovering the 6CI (Glenn Hauser, OK, WOR)

** TURKEY. 5960.004-, Sat Nov 9 at 2307, VOT English not off the air, S9+20/35 into UTwente atop CCCCCCI and with some hum, distortion, as Efsun the axentuated is speaking. I`m spot-checking rather than listening continuously. 2315 ID in Turkish, presumably ending the 2-minute multi-lingual ID filler reel; music. 2328 `Turkey`s Geomarked Products` about some cheese made of sheep, goat and cow milk. 2336 music and more music. 2350 multi-lingual ID filler reel. 2352 s/off as if on 13635 at 1330-1430: something`s always awry at Ankara. 2353 IS briefly and off* uncovering the 6CI (Glenn Hauser, OK, WOR)

** TURKEY [and non]. 9610.018-, Sun Nov 10 at 2151, once again I`m getting a headstart on the `Letterbox` from VOT English, good level into UTwente but the CCCCCCI is worse than usual. After a TRTVOTVorld.com promo, `L`box` starts again with the same non-Efsun YL as one biweek ago, then maybe named Sylvia? She again gives address awryly? as P O Box 33, not 333, but spells Yenisehir. {axually WRTH 2024 shows 33, so maybe previous hearing/seeing as 333 were wrong or changed.} 1) Pakistan. 2) Manitoba?? 3) Port Alberni, Canada -- it`s a huge country, so could you include the province? BC. Each wants a QSL and that`s all besides mentioned date of report. Only 3? 2155 music break already. 2159 not another mailer but into a long spiel about Turkish Independence and Atatürk, still past 2203. Provoked by some holiday/anniversary? No L`Box theme yet so still considered part of that? With annoying reception, I quit.

5960, Sun Nov 10 at 2259 into UTwente, VOT IS and s/on as sked, only program previewed is `Letterbox`. So I`ll check 2331 to hear if there were more than 3 --- but now it`s OFF, nothing but the ChiCom. 9610 is also occupied by a different ChiCom program. Something`s always erroneous at Emirler (Glenn Hauser, OK, WOR)

** TURKEY [and non]. 5960, Nov 11 at 2302, VOT English not off the air, S9+30 direct yet JBA/insuff vs noise level. Not got around to checking UTWente until 2353 when it`s off, nothing but Chinese music on 5960.003+. Had VOT just closed or was it gone much earlier? (Glenn Hauser, OK, WOR)

** TURKEY. 5960.016-, Tue Nov 12 at 2257, VOT IS and English IDs, not off the air, but unusable in HNL at S9+10 direct. Into UTwente at 2332 when measured, S9+25/30 atop CCCCCCI as Efsun the axentuated is

speaking about something. 2343 outro as `Weekly Commentary`, ``always-by-your-side`` promo, music. 2347 `Turkey`s Geomarked Products`, Efsun again, something about ear-ring protexion against evil-eye. 2350 music. 2353 ``always-by-your-side`` promo again! and s/off as if 1330 on 13635: something`s always awry at Ankara. 2354 IS. 2356 restart IS with German IDs. 0000 Nov 13 timesignal and s/on German. Something`s always erroneous at Emirler. And the ChiCom QRM is worsening. 0013 multi-lingual ID filler reel. 0015 music. 0019 still on for `Warum?` (Glenn Hauser, OK, WOR)

** TURKEY. 5960, Nov 13 at 2257 and 2312 chex direct, NO signal from VOT English, but a JBA carrier on 9610, so the 2130-2230 frequency overruning? NO, at 2322 into UTwente, 5960 in Chinese only and 9610 not in English nor Chinese: that would be Mongolian on CNR8 from Beijing site. Something`s always erroneous at Emirler (Glelnn Hauser, OK, WOR)

** U K [non]. 11645, Nov 13 at 2307 ``HARDtalk`` discussion in English about a film by a British woman of Palestinian heritage, S9+10/20, as in Alan Roe`s sked M/W/F via Tinang, PHILIPPINES. One of our best chances to listen to BBCWS, during this hour only, per HFCC 250 kW at 200 degrees, so close to directly off the back USward (Glenn Hauser, OK, WOR)

** U S A. 392 MCW kHz, Nov 7 at 0726 UT, ND beacon FMZ is JBA. It`s 25 watts at Fairmont / Beklof, Nebraska -- note that Beklof spelt backwards is Folkeb. Last logged Feb 29, 2024.

420 MCW kHz, Nov 7 at 0730 UT, ND beacon FQ, 25 watts at Fairmont MN, rarely heard but JBA now. Last definite log was Jan 24, 2022. Fairmont is a few km N of the Iowa border, between Albert Lea and Worthington on I-90 (Glenn Hauser, OK, WOR)

** U S A. 11175 USB, Nov 12 at 2301, US military crypto message underway fonetikaly starting with FV2S36RT...; quick check and hear // on 15016, 8992, until ``Unify[?], out`` (Glenn Hauser, OK, WOR)

** U S A [non]. 9575 & 9800, Nov 10 at 1937, Korean interspersed with musicbits. EiBi shows VOA, 9575 via THAILAND, 9800 via PHILIPPINES, so both aimed sortof thisaway far beyond. S5/S7 signals, better than 9690 SPAIN for N America (Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2267 monitoring: ``From: Richard Lemke, St. Albert, Alberta, Canada, the desk of Richard’s listening Post, Radio: JRC NRD-535 HF. Antenna: random long wires in the trees. Hello Glenn: WRMI, World of Radio #2267, 9395 kHz: 0030, ID 0045 as 2267, QRN, 0030, 0045, 0059 (4-55433), S9 signal, 0059, November 6 UTC 2024 [Wed] (Lemke, Richard -AB)``

Confirmed UT Thursday November 7 at 0130 on WRMI 5010, S8/9+10 into Bonaire SDR.

Also confirmed Thursday November 7 at 1730 on SW Radio, Germany, 3975.002, S9+7 into UTwente; and 6160 still off the air.

WORLD OF RADIO 2268 contents: Afghanistan, Alaska, Antarctica, Argentina and non, Austria and non, (Belgium), Brasil, Canada and non, China, Cuba and non, East Turkistan, Europe, (France), Germany, Indonesia, Iran, Italy, (Japan), Kaliningrad, *Korea South and non, (Kurdistan and non), Kyrgyzstan, Luxembourg and non, Netherlands, New Zealand, North America, Portugal, Saint Helena, Spain, Taiwan, (UK), USA and non, Vanuatu; propagation outlook - (countries mentioned along with others not in order - *with B24 schedule

(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2268 monitoring. [Un?]fortunately
I`m awake at 1301 Friday November 8 so can confirm new first SW airing
on WRMI 15770, only S1 while I`m on indoor around-ceilings `long` wire
due to all-night T-storm.

Also confirmed Friday November 8 at 2133 on IRRS via AM Italia,
1322.996+, S7 between fadeouts into UTwente. Better into Parma SDR at
S9. Closest SDR to Villa Estense at Noale has been gone for quite a
while now. Also on WRMI webcast-only.

Also confirmed Friday November 8 at 2315 the 2300 on WRMI 9955, S9+20
direct but undermodulated. No jamming audible.

Also confirmed Friday November 8 at 2332 the 2330 on SW Radio,
Germany, 3975.003+, S8/9+5 into UTwente. Next:

0400 UT Saturday WTWW 5085;
0930 UT Saturday WRMI 9455 to WNW [has been off air];
1530 UT Saturday SW Radio, Germany 6160;
1830 UT Saturday SW Radio, Germany 3975;

2030vUT Saturday WA0RCR 1860-AM [2000/2200];
0000 UT Sunday WTWW 9475 [suspended];
0100 UT Sunday WRMI 9955 to SSE [also web-, phonecast; jammed?];
0330vUT Sunday WA0RCR 1860-AM [nominal 0415; as late as 0600];
2000 UT Sunday IRRS 1323-Italy;
2230 UT Sunday SW Radio, Germany 3975;
2330 UT Sunday WRMI 7570 to NW [or 7780, last 3 weeks];
0030 UT Monday WRMI 7780 to SW;
0400vUT Monday WBCQ Area 51 6160v to WSW;
0930 UT Monday SW Radio, Germany 6160;
2030 UT Monday SW Radio, Germany 3975;
0330 UT Tuesday WRMI 7780 to SW;
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast; jammed?];
1500 UT Tuesday WRMI 9955 to SSE [also web-, phonecast; jammed?];
2000 UT Tuesday IRRS 1323-Italy;
0030 UT Wednesday WRMI 9395 to NNW;
0030 UT Wednesday SW Radio, Germany 3975;
2030 UT Wednesday SW Radio, Germany 3975;
2200 UT Wednesday WBCQ 7490v to WSW;
0130 UT Thursday WRMI 5010 to S;
1730 UT Thursday SW Radio, Germany 3975.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2268 monitoring: not confirmed UT Saturday November 9 at 0400 on WTWW 5085 -- because it cuts off air immediately after ID - but back on for a second, and off again to stay. Must have forgotten to stay on for WOR, or uncertain? I reremind George again, but still nothing by 0405 or so when I turn down the volume; but at 0414 I find I`m back on and has been playing from 0400 as mid-break comes at 0415. When on, VG signal direct, as always, and stays on to 0429 conclusion and a minute of music before off again.

Also confirmed Saturday November 9 at 1551 the 1530 on SW Radio, Germany, 6160.001-, S9+10 into UTwente. No ACI from 6165, and no RTTY from 6164 Kaliningrad. 3975 not on, but after 1600, 6160 is off, China 6165 is on and SWR 3975 is on instead.

Also confirmed Saturday November 9 at 1833 the 1830 on SW Radio, Germany, 3975.002+, S9/+5 into UTwente.

Also confirmed Saturday November 9 from 2118 UT the 2030v on WA0RCR, 1860 AM, MO, steady S9+19 groundwave into nearby SDR. Also on WRN Europe stream from 2100. Next:

0100 UT Sunday WRMI 9955 to SSE [also web-, phonecast; jammed?];
0330vUT Sunday WA0RCR 1860-AM [nominal 0415; as late as 0600];
2000 UT Sunday IRRS 1323-Italy;
2230 UT Sunday SW Radio, Germany 3975;
2330 UT Sunday WRMI 7570 to NW [or 7780, last 3 weeks];
0030 UT Monday WRMI 7780 to SW;
0400vUT Monday WBCQ Area 51 6160v to WSW;
0930 UT Monday SW Radio, Germany 6160;
2030 UT Monday SW Radio, Germany 3975;
0330 UT Tuesday WRMI 7780 to SW;
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast; jammed?];

0030 UT Wednesday SW Radio, Germany 3975;
2030 UT Wednesday SW Radio, Germany 3975;
2200 UT Wednesday WBCQ 7490v to WSW;
0130 UT Thursday WRMI 5010 to S;
1730 UT Thursday SW Radio, Germany 3975.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2268 monitoring: confirmed Sunday November 10 at 2000 on IRRS/NEXUS via AM Italia, 1323 kHz, S9 into UTwente across Europe, after s/off of ``7290``.

Also confirmed Sunday November 10 at 2230 on SW Radio,Germany, 3975.003, S8/S9 into UTwente.

Also confirmed Sunday November 10 at 2337 the 2330 on WRMI 7780 instead of still silent but scheduled 7570, S9+15/20 into S TX SDR.

Also confirmed UT Monday November 11 at 0030 on WRMI 7780, S9+10/22 into S TX SDR.

Also confirmed UT Monday November 11 at 0400.6 in Area 51 via WBCQ 6159.9, S9+10/20 but JBA direct, after JL ``Bye, y`all`` at 0400. At 0410 into NH SDR, 6159.93 at S5/S7.

Missed checking 2030 Mon Nov 11 on SWR 3975; anyone hear it? Next:

0330 UT Tuesday WRMI 7780 to SW;
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast; jammed?];
1500 UT Tuesday WRMI 9955 to SSE [also web-, phonecast; jammed?];
2000 UT Tuesday IRRS 1323-Italy;

2030 UT Wednesday SW Radio, Germany 3975;
2200 UT Wednesday WBCQ 7490v to WSW;
0130 UT Thursday WRMI 5010 to S;
1730 UT Thursday SW Radio, Germany 3975.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2268 monitoring: confirmed Tuesday November 12 at 1408 the 1400 on WRMI 9955, JBA S7/S9 direct.

Also confirmed Tuesday November 12 at 1500 on WRMI 9955, S5/S7 JBA direct but S9+20/25 into Georgia SDR.

Also confirmed Tuesday November 12 at 2100 on IRRS via AM Italia, 1322.997+, S9 into UTwente but continuous beepery from 1321.1 -

receiver artifact or real? Following Wavescan. Next:

0030 UT Wednesday WRMI 9395 to NNW;
0030 UT Wednesday SW Radio, Germany 3975;
2030 UT Wednesday SW Radio, Germany 3975;
2200 UT Wednesday WBCQ 7490v to WSW;
0130 UT Thursday WRMI 5010 to S;
1730 UT Thursday SW Radio, Germany 3975.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2268 monitoring: ``From: Richard Lemke, St. Albert, Alberta, Canada, the desk of Richard's listening Post, Radio: JRC NRD-535 HF, Antenna: random long wires in the trees, Hello Glenn: WRMI, World of Radio #2268, 9395 kHz, 0030, 0045, 0058 (55433-4), 0059, November 13 UTC 2024 [Wed] (Lemke, Richard -AB)``

Confirmed UT Wednesday November 13 at 0030 on WRMI 9395, S9+25/35 into Georgia SDR but NO signal into UTwente.

Also confirmed UT Wednesday November 13 from 0030.5 on SW Radio, Germany, 3975.003-, S7 into UTwente.

Also confirmed Wednesday November 13 from 2030.8 on SW Radio, Germany, 3975.002+, S9+5/10 into UTwente.

Also confirmed Wednesday November 13 at 2200 on WBCQ 7490 -48 Hz = 7489.952 into Maryland SDR correctly calibrated, so not as low as usual, S9/+10. Next:

0130 UT Thursday WRMI 5010 to S;
1730 UT Thursday SW Radio, Germany 3975.

(Glenn Hauser, OK, WOR)

** U S A. 5085, Nov 7 at 0215, no signal from WTWW-2. George McClintock informed me at 0210, that the #2 transmitter is off the air because a water leak caused arcing. Hope to have it repaired and back on later Thursday, or Friday in time for WOR 2268 at 0400 UT Sat. Meanwhile, WTWW-1 has been working well on 9930/5920, nothing but TOMBS (Glenn Hauser, OK, WORLD OF RADIO 2268) {By 0151 UT Friday Nov 8, 5085 is back on air, George says, with 60 kW. Still cannot get the transmitter to tune to day frequency 9475}

** U S A. 5085, Nov 9 by 0105, this WTWW-2 is on, also at 0219 and 0322 chex, so good prospect for WOR at 0400 (Glenn Hauser, OK, WOR)

** U S A. WTWW news about the 5085/9475 transmitter; with 7 photos, gh will forward directly if anyone is interested:

``WTWW: transmitter #2 CAPACITOR REPLACEMENT Tue, Nov 12 at 5:03 AM -- WTWW had to replace a bad shorting capacitor in transmitter #2. This required removal of the bad capacitor and removal of all supporting copper brackets and replacement of the same. This was accomplished by my son, John McClintock who did a good job as usual.

WTWW: plunger travel burned up on #2 transmitter Tue, Nov 12 at 5:20 AM -- The WTWW track that the plunger (shorts turns of the big coil to change frequencies) travels on, burned up. WTWW had to take parts from previous damage and repair the track so the plunger could continue to

travel on. Also, the shorting rings had to be replaced and melted metal was drilled out. Then the shorting rings were put back into the coil. George McClintock 11-11-2024`` (via Glenn Hauser, OK, WOR)

** U S A. 9955, Nov 8 at 0727, NO signal from this WRMI, so no TOMBS. Not bad propagation, because 9395 SMTV cult remains inbooming S9+6/7, even into my indoor around-ceiling `long` wire due to T-storm (Glenn Hauser, OK, WOR)

** U S A [non]. 7570, Nov 12 at 2306, JBA carrier, no doubt VOK/KCBS, KOREA NORTH, in continued absence of WRMI, which would have overlapped this hour only (Glenn Hauser, OK, WOR)

** U S A [and non]. Pre-`AAAWWW` WBCQ chex UT Sat Nov 9 at 0053, into NH SDR: zero on 3265 and 5130; 6160 -70 Hz with TOMBS?; 7490 -62 Hz = 7489.938, S7/S9 but heavy ACI from 7495 = VOA R Ashna in Pashto via KUWAIT, slightly stronger S8/9+5, so check Maryland SDR instead getting less ACI, 7489.939 S9/+15. Anyhow, I see that VOA is sked 0030-0100 only. 0059 FKB gets one-minute wrapup warning and does so, bit of Chariots of Fire theme, canned ID, and 0100 JIP Wm Tell Overture theme of `AAAWWW` - for some reason I can`t understand any of what AW utters thru the theme. By 0103 it`s obviously new and live from Fla, as they salute ``our hero, Elon Musk``, so it`s going to be an hour of elexion gloating. 5130 is still not on, but recheck 0148 now it is, 5129.934 (Glenn Hauser, OK, WOR)

** U S A. 12160, Sat Nov 9 at 1800, WWCR-2 with `Talking Machine Show`. A few minutes into really lo-fi music, Phil mentions a recording from 1901, 116 years ago, ergo this program was produced in 2017y, 7 years ago. Apparently are recycling old shows, but nothing is new again (Glenn Hauser, OK, WOR)

** U S A. 4840, UT Sun Nov 10 at 0415, following `Ask WWCR`, right into horrible off-key amateur hymn-singing, and a few minutes later, gospel-huxtering. WWCR have finally canceled, it seems, the four-year-old `Australian DX Reports` with Bob Padula; but still shows on their program sked. They must have found out somehow, as I would not notify them directly (it was at 0315 UT until this week due to DST). Now people may listen to some real current DX news from me at same time on 1860 (Glenn Hauser, OK, WOR)

** U S A. 15825, Tue Nov 12 at 2041, classical guitar music on WWCR-1! Can hardly believe my ears. In afternoon I`m often seeking in vain some good music on a SW bigsig to nap by. Too good to last; at 2045 into `Old Trailblazer` gospel huxter as sked for 2:45 pm but 1945 UT as program sked is still on CDT instead of CST! Preceding at 2:30 was `Spiritual Renaissance Broadcast` - maybe it were short or missing, tsk2 (Glenn Hauser, OK, WOR)

** U S A. 9275 AM, Nov 12 at 2304, WMLK with hymn in AM, S9+20/30 direct, no DRM but which has been reported before during this hour (Glenn Hauser, OK, WOR)

** U S A. Re 9275 WMLK in AM not DRM, Nov 12 at 2304: ``As of late they seem to be only doing a DRM 'hit' at roughly 2258 to 2300 UT on 9275. I haven't been able to coax any audio out of it, but have been able to get a positive visual ID. My email to them two weeks ago has gone unanswered. Apparently answering secular questions is not high on their priority list. Not sure what the purpose of the DRM test they are doing might be. Tony Pavick, Hope BC Canada``

And Wolfgang Bueschel replies: ``This DRM test decoding is - supposedly - included in their Ampegon handling OPENING procedure on their txion handling a personal computer procedure; similar as like an opening start password necessity for. ed. df5sx password necessity

procedure failed 4 years too - on RTA Ampegon shortwave TX installations at Bechar and Ou[a]rgla after 2018 year ... wb.]``

15150 AM, Nov 13 at 1627, WMLK ID and DEJOM asserting that it`s not a cult, in `Sacred Name Broadcast`, S9/+20 direct (Glenn Hauser, OK, WOR)

** U S A. 7505, Nov 13 at 0742 UT, WRNO is on late, all-night? I bandscan every nightmiddle and first time heard in months. S7/S8 in presumed Hindi, but then pronouncing contact info in English, Fort Worth 76101 postal address, and sounds like 7505abcd@gmail.com The website http://wrnoworldwide.com/ now says ``Daily 8PM-8AM`` So is this Tuesday or Wednesday? Sked on both days shows 12-3 AM music, with Hindi only at 10-11 PM CST. Something`s fouled up at Fort Worth. Also on disgraced FB, but would you believe the latest entry there was in 2020? (Glenn Hauser, OK, WOR)

** U S A. 660, Nov 10 at 0319 UT, chanting and drumming, dead giveaway it`s KTNN AZ in its Navajo/Navaho/Dineh split personality, otherwise C&W, and that it`s on ND day pattern not protecting NY; often the case but I have not kept track recently when it was correctly not audible (Glenn Hauser, OK, WOR)

** U S A. 660 kHz, Nov 11 at 0403 UT, S9 C&W music, KTNN again on ND day pattern. I wonder how much QRM this cause closer to WFAN (Glenn Hauser, OK, WOR)

** U S A. 770, Nov 10 at 0316 UT, open carrier/dead air, loops E/W on the PL-660. Very likely KKOB ABQ NM, probably still on 12.5 kW STA, but some test? Is there any progress in rebuilding their ballooned tower? Not there around 0730 final recheck (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 900 kHz, Nov 9 at 0819 UT, am barely awake, but note something here: ``Real Country``, local ads, helpline, multi-station ID sounds like WAMZ FM 98.9, also 1590 and another call I miss maybe applying to 900. Cross-checking radio-locator, WTFDA FM Database and NRC AM Log, nothing fits exactly, but closest leads to: 900, WKDA, Lebanon TN, 5000/136 watts, in Group: FM 98.9 Real Country. The 98.9 station is really WANT, Lebanon. There is also a 1490 in the group, not 1590. At 2100 & 2106, listening to 900 via Nashville SDR, and hear some similar-sounding `Real Country` IDs. Anyhow, 900 is an interesting DX frequency with CHML gone, XEW unheard on what was supposedly a Mexi/Canadian `clear channel`, now with lots of low-power US stations on it (Glenn Hauser, OK, WOR)

** U S A. 900 kHz, Nov 10 at 0159 UT, too-fast multi-station ID, including two FM translators, one of them W252##, which is 98.3, and ``Lebanon`` also heard, so it is in fact WKDA, Lebanon TN, as concluded likely in my last report as unID. NRC AM Log shows 98.3 in the group is W252DU. WTFDA FMDB shows that one relays WCOR 1490, which is also in Lebanon. This sure is convoluted (Glenn Hauser, OK, WOR)

** U S A. 1450, Nov 8 at 0802 UT, somestation occasionally peaking above the graveyard pileup, ID as ``Greatest hits - oldies, KOKO, Warrensburg`` and into Fox ``news``. That`s in northwest Missouri, while there are several closers. NRC AM Log says ``Good Time Oldies - Co Co``. Last logged over 9 years ago in 2015: ``1450, July 11 at 0225 UT, ad for something in ``downtown Warrensburg``, maybe during game, atop the graveyard pileup. It`s KOKO, Warrensburg MO, outdistancing about six closer 1450s including two in OK, at 450 km = 280 statute miles`` (Glenn Hauser, Enid OK, WOR)

** VANUATU. 9960, Nov 11 at 0657, JBA carrier from presumed R. Vanuatu a couple minutes before QSY as others report (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 900, Nov 10 at 0305, JBA ID thru pileup on E/W loop, sounds like KAOK. Closest fuzzy fit is KHOZ, Harrison AR (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 6155, Nov 12 at 0745, JBA carrier, even weaker than 6160- WBCQ. Surely not Austria, ORF via ORS canceled. Likely KBSWR, Korea South, warming up for Japanese at 0800-1000 (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 26586 AM, Nov 12 at 2228 & 2256, 2-way in Spanish, pileups, mentioned California; as if a regular CB channel (Glenn Hauser, OK, WOR)

UNSOLICITED TESTIMONIALS

``Glenn, Thanks. Most informative and helpful for DXers. As I wrote years ago, "I don't know how you do it day in and day out.". Just keep doing it! 73, Kraig Krist, KG4LAC, VA`` See: https://www.kg4lac.com/
